

Suction Outlet Cover/Grate Installation Log

This log shall be used to document the installation of suction outlet covers/grates when the cover/grate is the only component of the Suction Outlet Fitting Assembly (SOFA) being installed. **The pool owner/operator shall ensure that installed covers/grates provide a SOFA suction system flow rating that exceeds the maximum flow rate of the pump(s). All covers/grates shall be installed in accordance with the manufacturer's installation instructions. Any modification that increases the flow rate of the circulation system shall require re-evaluation of the cover/grate and sump to ensure that the flow rating of the SOFA is not exceeded.**

USE ONE LOG SHEET FOR EACH POOL

Establishment name: _____

Pool location (e.g. indoor): _____

License number: _____

Pool type (e.g. swimming, wading, spa): _____

Date of Installation	Location of cover(s)/grate(s) installed (e.g. floor, wall)	Number of cover(s)/grate(s) installed	Manufacturer Name	Model Number	Cover(s)/grate(s) marked (stamp or similar) Indicating VGB 2008 or VGBA 2017	Life Span (years)	SOFA suction system flow rating (gpm)	Initials: I certify that suction outlet covers/grates were installed according to manufacturer's instructions, including SOFA suction system and pump(s) flow rating compatibility

Maintain this log onsite and make it available to your inspector upon request. You will be required to keep evidence of the certification documents provided with each cover installed with the installation date noted on each document.
