### About the conference

Conference attendees will include state, county, tribal, and city public health leaders from across Minnesota, as well as guest participants from partnering community, educational, and national organizations.

With a conference theme of *Transforming our system together for a healthy Minnesota* we will explore new approaches for transforming Minnesota's public health system, forge and strengthen the state and local public health partnership, and leverage all our expertise to develop strategies that improve the well-being of communities across Minnesota. This conference will provide attendees practical tools, innovative ideas, and valuable networking opportunities to elevate their leadership, increase their connections, and enhance their knowledge of how state, local, and tribal governmental health departments can partner together.

Our organizations rely on the support of sponsors and exhibitors to make this conference a success! Your financial support helps fund meeting costs and increases access to this important learning and connection opportunity. We are grateful for your consideration of being involved.

## About the sponsor and exhibitor experience

By participating in this conference, you will have the opportunity to connect and network with our **estimated 300+ in-person conference attendees**—leaders and decision makers in state, local, and tribal public health from across Minnesota.

All conference sessions, meals, and breaks will be held in the Conference Center at Breezy Point Resort and exhibit space will be near all programming. Sponsoring and exhibiting organizations are welcome and encouraged to participate in the entirety of the conference as there will be many opportunities for connection with attendees both formal and informal throughout the conference.

We will have designated time throughout our agenda during which attendees will be encouraged to visit the vendor exhibits. Specifics on the agenda will be provided closer to the conference.

Exhibit tables may be set up beginning mid-morning Wednesday, November 13. Exhibit space must be cleared by early afternoon on Friday, November 15. We will provide more timing details on set-up and teardown closer to the conference.

## Sponsorship levels

Two sponsorship levels— Gold and Silver – are available to help your organization increase its profile at the MN Partners in Public Health Conference while meeting your engagement goals and budgets. Each sponsorship level offers unique opportunities to connect with conference attendees and to demonstrate your commitment to both governmental public health in Minnesota and the conference.

For governmental programs and non-profits, being an exhibitor is a cost-effective opportunity for you to promote products and services.
