Workgroup staff: Ann March (MDH), Ghazaleh Dadres (MDH)

Decisions made

- Different approach ideas generated, no decisions made

Meeting notes

Historical review of LPH performance reporting

Beth Gyllstrom and Phyllis Brashler, from MDH, provided a history of annual reporting, from PPMRS to LPH Act Annual Reporting to the recent Cost and Capacity assessment. The slides for the presentation are available in the Performance Measurement Workgroup Teams file (titled LPH Performance Reporting Historical Review)

Discussion to generate approach ideas

Workgroup members discussed the strengths and limitations of past LPH performance reporting, considered what expanding to measure whole system performance might look like, and began to generate ideas for new approaches. The workgroup is encouraged to continue to contribute to the padlet of ideas and interact with the ideas posted.

Revisit vision for success:

Workgroup members revisited past work on ingredients for success, considered groupings and clarified ideas to help with developing themes. These will be used for guideposts throughout the process. [What are key ingredients for successful performance measurement of our governmental public health system?](#)

Sharing from the field

A padlet has been set up for ongoing contributions if members would like to add notes/input from their region or other interested parties as they receive it. This is intended to be a standing agenda item at future meetings. <https://padlet.com/annmarch/sharing-from-the-field-d8xs3imtlhrs4wtc>

Workgroup organization

Chera and Amy are interested in serving as chairs. SHCSAC exec appoint chairs and their interest was shared with SCHSAC exec. SCHSAC exec's next meeting is September 15.

A Performance Measurement Team was established in Microsoft Teams. Many had not gone through the process to get in yet. We'll reassess how this is working at the next meeting.
