offered little cigars for less than \$1.00

The Tobacco Industry spends \$110.5 million each year promoting tobacco products in Minnesota. That's about \$12,614 every hour.

Local action for effective tobacco prevention

**The Minnesota Department of Health supports community driven solutions to create tobacco-free environments and promote quitting.**

Communities are working to:

- Reduce tobacco industry influence in retail stores.
- Increase the price of tobacco.
- Provide support and resources to Minnesota smokers who want to quit.
- Raise the minimum tobacco sales age to 21.
- Promote smoke-free environments.
- Engage diverse populations throughout Minnesota.

# Youth tobacco use in Minnesota

Tobacco use among Minnesota's 9<sup>th</sup> and 11<sup>th</sup> grade students, 2016

Statewide, over 17% of 11th graders use e-cigarettes, while only 8.4% use cigarettes and 5.1% use smokeless tobacco.

## Statewide disparities in youth tobacco use

Despite declines in tobacco use overall, significant disparities remain among populations historically targeted by the Tobacco Industry. **Statewide, 21.8% of 11th graders use tobacco.**

Percent of Minnesota students who used any tobacco in past 30 days, Grade 11, 2016

## Cigarette smoking during pregnancy

Percent of pregnant women who smoke, 2012-2015

Fetal exposure to nicotine can have long-term health consequences, including sudden infant death syndrome (SIDS), impaired fetal brain and lung development, hearing problems, effects on behaviors and obesity, and deficits in attention and cognition.
