Saf-T-Pak training includes an IATA-equivalent certificate and covers all of the IATA requirements.

Saf-T-Pak's Class 6.2 Online Compliance Training Includes:

- Cat A Infectious Substances (UN2900 or UN2814)
- Cat B Infectious Substances (UN3373)
- Exempt Human and Animal Specimens
- Dry Ice (Class 9 UN1845)
- Emergency Response and much more.

Training is presented in accordance with IATA/ICAO, 49 CFR and TDG. Course objectives are for students to be able to apply the Dangerous Goods regulations properly, understand their responsibilities, know both visible and hidden hazards, know the proper Shipping Names required, know the value of using a checklist and how to properly pack, mark, label and document shipments of Class 6, Division 2 material.
