Row Information

High Risk: Starred interventions required, additional interventions per nursing judgment.

Environmental Risk Evaluation:

Remove all unnecessary cords: Remove extra call lights

Place all necessary cords away from patient: Place vitals machine/monitor and phone as far away from patient as possible. Have computer folded up into wall when not in use.

Remove extra furniture: All chairs (if sitter is ordered place one chair in room near the door). All extra tables (except for tray table). Crucifix.

Remove hangers from closet if possible.

Place extra garbage cans in bathroom.

Place ALL patient belongings in the closet: Purses, Clothes and Shoes.
