Testing Changes

Reminder: Day of Test Changes

Start planning to ensure students can test by following the handbook guidance, flexibilities on testing day end Jan. 1, 2023

Beginning Jan. 1, 2023, Headmaster will no longer offer flexibilities on the day of testing and will require training programs, test sites and candidates to follow the processes outlined in the Minnesota Candidates Handbook.

Why is Headmaster no longer offering these flexibilities on the day of testing?

Since February, Headmaster, MDH's testing contractor for placement on the Minnesota Nursing Assistant Registry, supported Minnesota's transition to the new testing platform by providing support and flexibility to training programs, test sites and candidates. Additionally, Headmaster provided support to the candidates and test sites on the day of testing and flexibility by allowing candidates to test despite processes in the Minnesota Candidates Handbook not being followed. Also, Headmaster corrected errors in candidate's identification information including giving an identifier when they did not have a social security number and correcting the spelling of their name to match their required identification documentation. After careful consideration, Headmaster can no longer support these courtesies on the day of testing beginning Jan. 1, 2023. Yet, Headmaster will continue to support these areas and assist with corrections **before the candidate's test date.**

What should we do to plan for this change?

Test Day Change: Effective Jan 1, 2023

Headmaster will no longer be able to offer flexibilities when candidate arrives unprepared on day of testing

- Training programs and candidates are required to follow processes outlined in the Minnesota Candidate Handbook
- Candidate Handbook is essential to the testing process

Test Sites Responsibilities

Test Site Responsibilities

- Monitor RN observer submissions in TMU under the test site account login
- Ensure test site and test event policies and procedures are followed

Test Sites- Challenge Candidates

- Test sites enter challenge candidate information into TMU
- Candidates get access to TMU and enter personal data 48 hours BEFORE date of test
- Ready to test

Information Gathering

- The test site must obtain information from the candidate to create an account in TMU prior to testing
- Correct spelling of first and last name, date of birth, phone number, and email

Training Program Test Data

The Minnesota Department of Health Nursing Assistant Registry approves Nurse Aide Training Competency Evaluation Programs (NATCEP). According to federal and state law, the training programs must be at least 75 hours in length.

Persons are allowed four (4) chances to pass the knowledge and three (3) chances for the skills competency exam for placement on the Minnesota Nursing Assistant Registry.

Posted data is for all test takers from an approved NATCEP. The knowledge and skills competency examination data are combined. Posted data also includes test takers who have not completed an approved training program, that have challenged the competency exam or have tested using the waiver checklist option.

More information about the challenge and waiver checklist options is available in the following document: [Placement on Minnesota's Nurse Aide Registry for Nurse Aides Working during the 1135 Waiver \(PDF\)](#).

The approved training program test data is provided to the Minnesota Nursing Assistant Registry. Each training program has the ability to review their own data in the [Test Master Universe \(TMU\) system](#) from Headmaster.

Questions regarding this data may be emailed to: nar.coord@state.mn.us.
