

## Level 4 Trauma Hospital Criteria Crosswalk

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Institution 1.1	The board of directors, administration, and medical staff shall demonstrate a commitment to provide the resources and support necessary to sustain the trauma designation. This commitment shall be signed and dated within one year of designation expiration.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>A signed hospital board resolution letter dated no more than one year prior to designation expiration</li> </ul> <p>A signed medical staff board resolution letter dated no more than one year prior to designation expiration</p>	<p>Hospital Board Resolution</p> <p>Medical Staff Resolution</p>	<p>Resolution should include language such as:</p> <p>“THEREFORE; BE IT RESOLVED that the board of directors of</p> <p>[HOSPITAL] acknowledges the commitment to adherence</p> <p>to the standards required for level [III or IV] trauma</p> <p>designation, as well as commitment to ensuring that the</p> <p>necessary personnel, facilities, and equipment are made</p> <p>available to support adherence to those standards.”</p> <p>When using templates, be sure they are modified as appropriate including your hospital name and designation level.</p> <p>Evaluate the appropriate timeline to start this process, as it can take a while to cycle through meetings for the appropriate signature(s).</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
<b>Institution 1.2</b>	The trauma program shall be established by the facility and represented on the official hospital organizational chart.	<p>The following must be submitted with the designation application:</p> <p>An official hospital organizational chart</p>	Organizational Chart	<p>The facility's organizational chart should show where trauma "lives" in the facility in relation to other departments in the hospital. The organizational chart should represent job titles or positions, not specific people.</p> <p>The trauma program may be located within an existing department, such as the Department of Surgery or Emergency Department, but must appear on the official organizational chart.</p>
<b>Medical Director 2.1</b>	The trauma medical director (TMD) shall be a physician whose job description defines his or her authority, roles, and responsibilities for the leadership of the trauma program, the trauma performance improvement process, and tertiary case review.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Start month and year for the TMD</li> <li>• Expiration date of current board certification</li> <li>• Current job description(s) should include: <ul style="list-style-type: none"> <li>Role and responsibilities for: <ul style="list-style-type: none"> <li>• Leadership of the trauma program</li> <li>• Trauma performance improvement</li> </ul> </li> <li>Tertiary case review</li> </ul> </li> </ul>	Trauma Medical Director Job Description	The trauma medical director (TMD) position may also be titled trauma medical advisor if needed.

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Medical Director 2.2	The trauma medical director (TMD) must meet the same trauma training requirements as the Emergency Physician.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• The month and year of course completion for the TMD's last training course (ATLS or CALS)</li> </ul> <p>Clinician roster including the required educational and certification components</p>	<p>Clinician Roster</p> <p>Educational Resources website</p>	There is no grace period for either ATLS or CALS training.

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
<b>Medical Director 2.3</b>	The trauma medical director (TMD) may appoint another physician or advanced practice provider (APP) to serve as a co-medical director to assist in fulfilling the roles and responsibilities of the leadership of the trauma program, the trauma performance improvement process, and tertiary case review. If a co-medical director is appointed, the TMD must remain active in and responsible for all trauma program functions.	If the facility has appointed a co-medical director, the following must be submitted with the designation application: The name of the physician or advanced practice provider (APP) who has been assigned the co-medical director position Their start date (MONTH/YEAR) in the position A job description defining their roles and responsibilities for the trauma program and PI process	Trauma Medical Director Job Description	The co-medical director position may also be titled co-medical advisor if needed.
<b>Medical Director 2.4</b>	The co-medical director must meet the same trauma training requirement as the Emergency Department providers.	The following must be submitted with the designation application: The month and year of course completion for the co-medical advisor's last training course (ATLS or CALS) Clinician roster including the required educational and certification components	Clinician Roster  Education Resources website	There is no grace period for either ATLS or CALS training.

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Program Manager 3.1	<p>The trauma program manager (TPM) must be either a registered nurse or an allied health professional with emergency and trauma care experience.</p> <p><b>3.1.1</b> The TPM job description must define the roles and responsibilities for the management and leadership of the trauma program and the trauma performance improvement process.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• The name and credentials of the TPM position</li> <li>• Their start date (Month/Year) in the position</li> <li>• The TPM job description describing all trauma program roles and responsibilities, including the performance improvement process</li> </ul>	<p>Trauma Program Manager job description</p>	<p>The TPM job description will define the roles and responsibilities related to the leadership of the trauma program, including trauma performance improvement.</p> <p>The trauma program manager position may also be titled trauma program coordinator if needed.</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Program Manager 3.2	<p>If the trauma program manager (TPM) is not a registered nurse, a registered nurse must assist with:</p> <p><b>3.2.1</b> Primary review of trauma care provided in all areas of the hospital</p> <p><b>3.2.2</b> Function as a liaison between the trauma program and the nursing staff</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• The name and credentials of the registered nurse assisting the TPM</li> <li>• Their start date (Month/Year) in the position</li> </ul>		<p>The liaison should assist with follow-up/investigation, education, etc. between the trauma program and nursing staff.</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Program Manager 3.3	<p>The trauma program manager (TPM) must have at least a portion of an FTE dedicated for trauma program responsibilities.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• The amount of FTE the TPM has dedicated to the trauma program.</li> </ul> <p>This will be validated at the site visit.</p>		<p>The trauma program performance improvement process requires that sufficient resources are invested in order to maintain integrity and support the growth of the trauma program. The time allotted should be dedicated, protected, and uninterrupted.</p> <p>Dedicated time for trauma program managers* directly correlates with the success of a facility's trauma program. TPM workloads are extremely dependent on ED and admission volumes.</p> <p>Most successful Level 4 trauma programs have a minimum 0.2 FTE (smallest facilities) to 1.0 FTE (largest facilities), which increase rapidly with higher ED and admission volumes. This does not include FTE allocation for registry entry.</p> <p>Leadership of the trauma program, the PI process and other workload completion/timeliness must be monitored closely to judge whether the FTE assignment is adequate.</p> <p>PI and other workload completion and timeliness must be monitored closely to judge whether the FTE assignment should be increased.</p> <p>If the facility had immediate actions or multiple recommendations in the past designation cycle, re-evaluate the FTE allocation and responsibilities of the TPM.</p> <p>*Some TPM responsibilities may be delegated to other staff.</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
<b>Trauma Team Activation 4.1</b>	<p>The hospital must have a trauma team activation (TTA) policy, protocol or guideline that include:</p> <p><b>4.1.1</b> A list of all team members expected to respond, which may include telemedicine providers.</p> <p><b>4.1.2</b> The response time expectation for the team members, including in-house and off-site staff.</p> <p><b>4.1.3</b> The physiologic, anatomic, and clinical indicators that, when met, require the activation of the trauma team.</p> <p><b>4.1.4</b> The person(s) authorized to activate the trauma team.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• A list of team member positions (not names) expected to respond to each level of trauma activation</li> <li>• The response time expectation for each of the team members listed above</li> <li>• The criteria for each level of activation</li> <li>• A list of positions authorized to activate the trauma team</li> </ul>	<p>L4 Single-Tier Trauma Team Activation (TTA) Guideline</p> <p>L4 Multi-Tier Trauma Team Activation (TTA) Guideline</p>	<p>When trauma activation criteria are changed, review and update any associated policy to ensure it matches.</p> <p>Provide nurse and provider education when any activation criteria or policy change occurs.</p> <p>Anatomic criteria refer to specific injuries and injury patterns.</p> <p>Physiologic criteria refer to disturbances in vital signs, such as low GCS, decreasing GCS, or hypothermia.</p>
<b>Trauma Team Activation 4.2</b>	<p>The trauma team activation (TTA) criteria must be readily available in locations where a trauma patient is likely to be initially encountered.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Trauma team activation poster</li> </ul> <p>Locations of posted criteria will be validated during the site visit.</p>	<p>L4 Single-Tier Trauma Team Activation (TTA) Guideline</p> <p>L4 Multi-Tier Trauma Team Activation (TTA) Guideline</p>	<p>Criteria should be readily available in the ED triage area, trauma bays, and any other ED rooms where injured patients may receive care.</p> <p>Ensure that any wall posters match the trauma activation policy, protocol, or guideline.</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Trauma Team Activation  
4.3

The trauma team activation guideline, at a minimum, must include the following physiological and anatomical indicators:

4.3.1 Sustained GCS  $\leq 10$  secondary to trauma.

4.3.2 Respiratory distress, airway compromise, intubation, or respiratory rate outside of acceptable range (Table 1 Age Specific Respiratory)

*Table 1: Age specific Respiratory*

Age Specific Respiratory	
Age (years)	RR (per min.)
< 1	<20 or >60
1-2	<10 or >50
2-5	<10 or >40
6- 14	<10 or >30

4.3.3 Penetrating injury to the head, neck, chest, abdomen, or pelvis

4.3.4 Evidence of shock/hypoperfusion indicated by:

4.3.4.1 Systolic blood pressure < 90 mmHg at any time or age-specific hypotension in pediatrics (Table 2 Age-Specific Hypotension)

The following must be submitted with the designation application:

- TTA policy

Validated through case reviews and tour at the site visit

L4 Single-Tier Trauma Team Activation (TTA) Guideline

L4 Multi-Tier Trauma Team Activation (TTA) Guideline

Discretionary items are required to be listed on the TTA policy, but activation is at the decision of the ED provider

Additional considerations by the ED provider may include:

- Age (pediatric (<5) and elderly (>65 years old)
- Multiple Co-morbidities
- Suspected inhalation injury
- Mechanism of Injury:
  - MVC with ejection of MVC with death of an occupant
  - Separation of rider from motorized device or large animal
  - Pedestrian or cyclist struck by vehicle and thrown

Concern for blunt thoraco-abdominal injury

Trauma Team Activation 4.3 (continued)	<p>4.3.6 Pregnancy &gt; 20 weeks with vaginal bleeding or contractions attributed to a traumatic mechanism.</p> <p>4.3.7 Burns &gt;20% TBSA OR burns with potential need for airway management</p> <p>4.3.8 Time sensitive orthopedic injuries OR severe orthopedic injury from high energy mechanism</p> <p>4.3.8.1 Threatened limb: including extremity ischemia, crush injuries, concern for neurovascular compromise, amputation proximal to the wrist or ankle.</p> <p>4.3.8.2 Dislocated knee or native hip</p> <p>4.3.8.3 Open fracture or multiple long bone fractures</p> <p>4.3.9 Suspected spinal cord injury with focal neurological deficit (i.e. numbness/tingling)</p>			

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
General Surgery 5.1	If the hospital admits trauma patients as described in Section 10.2, a general surgeon must be continuously on-call and available to respond to the hospital within 60 minutes.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>General surgeon on-call schedule (Up to 12 months' worth of schedules may be requested.)</li> </ul> <p>Response time from the surgeon must be documented and will be validated through case reviews at the site visit.</p>		<p>For the purposes of general surgeon coverage, "continuously" means seamless coverage at least 350 days of the calendar year. The surgeon must be available during the acute phase of care.</p> <p>Admission policy or similar document should reflect surgeon response time expectations.</p>
Emergency Medicine 6.1	The emergency department must be continuously covered by a physician or advanced practice provider.	<p>The following must be submitted with the designation application:</p> <p>ED schedule demonstrating continuous coverage (Up to 12 months' worth of schedules may be requested.)</p>		

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Emergency Medicine 6.2	If the emergency department provider is off-site, an on-call schedule must identify the provider(s) covering the emergency department. When called, the provider must arrive at the bedside within 30 minutes of the patient's arrival.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>The ED schedule showing physician and APP coverage. If an APP is the primary provider, their physician backup must be listed as well. If telehealth is utilized as back-up, this must be indicated on the ED schedule. (Up to 12 months' worth of schedules may be requested.)</li> </ul> <p>This will be validated during case reviews at site visit.</p>		

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Emergency Medicine 6.3	When the primary emergency department provider is an advanced practice provider (APP), a physician must be on-call and available for consultation by telephone (or similar means) within 30 minutes.	This will be validated during case reviews at site visit.		<p>If an advance practice provider is the primary emergency department provider, the on-call schedule must also include the physician providing back-up coverage.</p> <p>If telehealth is utilized as back-up, this must be indicated on the ED schedule.</p>
Emergency Medicine 6.4	The physician on-call for consultation must either meet the same trauma training requirements as the emergency physician, or practice emergency medicine or trauma surgery at a Level 1 or Level 2 trauma hospital that is verified by the American College of Surgeons (ACS).	<p>If the physician on call for consultation does not practice emergency medicine or trauma surgery at an ACS Level 1 or Level 2 center, the following must be submitted with the designation application:</p> <p>Clinician Roster, including education and training information</p>	Clinician Roster	If the hospital contracts with a telehealth company for this service, ensure the contracted providers meet this definition.

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Orthopedic Surgery 7.1	If the hospital provides emergent orthopedic surgery, a schedule of the orthopedic surgeon on-call must be maintained and accessible by the emergency department and in-patient staff.	<p>If the hospital provides emergent orthopedic surgery, the following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Orthopedic surgeon on-call schedule (Up to 12 months' worth of schedules may be requested)</li> <li>• Orthopedic Worksheet</li> </ul> <p>Validated through case reviews at site visit.</p>	Orthopedic Worksheet	Ensure consistency between the transfer policy, admission policy, and the facility's practice related to orthopedic care.

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Orthopedic Surgery 7.2	If the hospital admits patients for the care of surgical orthopedic injuries, a schedule/document outlining the orthopedic surgeon coverage must be maintained and accessible by the emergency department and in-patient staff.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• A schedule/document to outline the orthopedic surgical coverage (Up to 12 months' worth of schedules may be requested)</li> </ul> <p>Orthopedic Worksheet</p>	Orthopedic Worksheet	Ensure consistency between the transfer policy, admission policy, and the facility's practice related to orthopedic care.
Blood Bank 8.1	There must be an in-house blood bank stocked with type-O blood.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• The number of units of each blood product that is typically stocked in-house.</li> </ul> <p>This will be validated at site visit.</p>		

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Blood Bank 8.2	<p>There must be a policy establishing a procedure for the emergent release of uncross-matched blood that:</p> <p><b>8.2.1</b> Ensures that uncross-matched blood can be released to the appropriate staff immediately</p> <p><b>8.2.2</b> Includes a provision to release uncross-matched blood to the appropriate staff in the absence of the blood bank staff if they are off-site</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Emergent Blood Policy</li> </ul>		
Radiology 9.1	<p>A radiology technician or technologist must be continuously available, either in-house or on-call.</p>	<p>The following must be submitted with the designation application:</p> <p>A description of radiology technician or technologist coverage</p>		<p>The radiology technician or technologist response time expectations should be outlined in the TTA policy, protocol, or guideline (see Criterion 4.1)</p>
Radiology 9.2	<p>If the hospital admits trauma patients as described in Section 10, a computed tomography (CT) technician or technologist must be continuously available, either in-house or on-call.</p>	<p>The following must be submitted with the designation application:</p> <p>A description of CT technician or technologist coverage.</p>		<p>If the hospital admits any trauma patients under criteria 10.1 and/or 10.2, answer YES in the designation application to populate the CT question.</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Radiology 9.3	A radiologist must be continuously available, either in-house or off-site.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• A description of radiologist coverage</li> </ul> <p>This will be validated at site visit.</p>		

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

<b>Admission 10.1</b>	<p>Trauma patients with the following injury patterns may be admitted to a level 4 trauma hospital. The trauma hospital should determine which of these conditions may be admitted following an initial evaluation.</p> <ul style="list-style-type: none"> <li>• Concussion</li> <li>• Subarachnoid hemorrhage involving one hemisphere no more than 3mm thick, subdural or intraparenchymal hemorrhage &lt; 8mm thick, GCS &gt; 13, in a patient not taking anticoagulant or antiplatelet agents (aspirin and NSAIDs are allowed)*</li> <li>• Diminished level of consciousness attributed to a non-traumatic cause</li> <li>• Thoracic or lumbar transverse or spinous process fracture</li> <li>• Other acute spinal fracture without neurological deficit with spine surgeon consultation</li> <li>• Orthopedic injuries in the absence of injury to another major organ system (i.e., circulatory, nervous or respiratory)</li> <li>• One or two rib fractures with a Practice Management Guideline in place</li> <li>• Three or more acute rib fractures with a Practice Management Guideline in place after consultation** with a trauma-trained general surgeon. This consultation must be documented in the medical record</li> <li>• Pneumothorax that does not require a thoracostomy</li> </ul> <p>Those who refuse to be transferred</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Admission policy</li> <li>• Practice Management Guideline (PMG) for rib fractures</li> </ul> <p>Validated through case reviews at site visit</p>	<ul style="list-style-type: none"> <li>• L4 Admission Policy</li> <li>• Rib Fracture PMG</li> <li>• Criterion 16.3 (PI Process)</li> <li>• Criterion 17.1 (PI Measures)</li> </ul>	<p>The hospital admitting under 10.1 may include (but not exceed) the conditions listed in criteria.</p> <p>Initial evaluation is conducted in accordance with current trauma guidelines such as ATLS and/or CALS.’</p> <p>Trauma-trained general surgeon refers to a surgeon who meets State Trauma criteria as defined in Criterion 12.1.</p> <p>Patients admitted for pain control in the absence of an injury listed in Section 10, to care for a medical condition, for comfort care, for physical or occupational therapy, or while awaiting evaluation or placement for a living situation are not considered to be trauma patients.</p> <p>PMG must be approved by the hospital Medical Executive Committee or equivalent and monitored by the trauma PI program.</p> <p>Epidural hemorrhages are not eligible for admission under this criterion.</p> <p>*Based on the mBIG (Brain Injury Guidelines) criteria (2022)</p> <p>**Consultation can be remote.</p>
---------------------------	---	--	--	---

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Admission 10.2	<p>If a trauma trained general surgeon is continuously on-call for trauma, patients with the following injuries may also be considered for admission:</p> <ul style="list-style-type: none"> <li>• Pneumothorax requiring a thoracostomy</li> <li>• Unilateral pulmonary contusion without the need for oxygen to maintain SpO2 &gt; 90%</li> <li>• Sternum fracture or scapula fracture without any acute rib fractures</li> <li>• Those who have undergone an emergent surgical procedure as part of the resuscitation that definitively treats the traumatic condition.</li> </ul> <p>The general surgeon must respond to the hospital and assess the patient within 18 hours of discovery.</p> <p>The consultation/admission may be accomplished by the surgeon's appointed advanced practice provider on behalf of the surgeon.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Current General surgeon on-call schedule (Up to 12 months may be requested)</li> <li>• Admission policy</li> </ul> <p>Validated through case reviews and review of PI documents at site visit.</p>	L4 Admission Policy	<p>"Continuously" means seamless coverage at least 350 days of the calendar year. The surgeon must be available during the acute phase of care.</p> <p>When indicated, a thoracostomy should be performed immediately; it should not be delayed while awaiting the arrival of a surgeon.</p> <p>Admission policy should reflect expectations for surgeon involvement in the admitted patient with 3 or more rib fractures (Criterion 10.1).</p> <p>Trauma-trained general surgeon refers to a surgeon who meets State Trauma criteria as defined in criterion 12.1.</p> <p>A resident can respond and perform any role in the resuscitation that the surgeon deems fit. However, the trauma system response requirements refer to the attending surgeon. The resident cannot respond in his/her place or supplant his/her role.</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

<b>Admission 10.3</b>	<p>The hospital must have a policy describing:</p> <p><b>10.3.1</b> The types of trauma patients considered for admission</p> <p><b>10.3.2</b> The specialties responsible for admitting and providing consults.</p> <p><b>10.3.3</b> The expectations for monitoring patients for deterioration. Elements should include:</p> <p style="padding-left: 20px;"><b>10.3.3.1</b> Fluctuating or increasing heart rate</p> <p style="padding-left: 20px;"><b>10.3.3.2</b> Fluctuating or decreasing blood pressure</p> <p style="padding-left: 20px;"><b>10.3.3.3</b> Fluctuating or worsening level of consciousness or mental status</p> <p style="padding-left: 20px;"><b>10.3.3.4</b> Increasing work of breathing, shortness of breath, or tachypnea</p> <p style="padding-left: 20px;"><b>10.3.3.5</b> Increasing agitation or anxiety</p> <p style="padding-left: 20px;"><b>10.3.3.6</b> Diaphoresis or pallor</p> <p style="padding-left: 20px;"><b>10.3.3.7</b> Indications for provider notification</p> <p><b>10.3.4</b> The considerations of the admission decisions, in the event of patient deterioration, must include:</p> <p style="padding-left: 20px;"><b>10.3.4.1</b> weather</p> <p style="padding-left: 20px;"><b>10.3.4.2</b> distance</p> <p style="padding-left: 20px;"><b>10.3.4.3</b> transport resource availability</p> <p style="padding-left: 20px;"><b>10.3.4.4</b> timeliness of specialty resources/definitive interventions</p> <p><b>10.3.5</b> The emergent transfer procedures in the inpatient setting.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Admission policy</li> </ul> <p>Validated through case reviews at site visit</p>	<p>L4 Admission Policy</p>	<p>Provide education to staff with any trauma policy change.</p> <p>The policy should reflect all provider types involved in the care of the admitted patient. i.e. hospitalists, internal medicine, family medicine, general surgeons, ortho, neuro, etc.</p> <p>Cross reference admission and transfer policies to ensure they do not contradict each other.</p> <p>Encourage proactive considerations to limit the number of reactive responses needed.</p> <p>The impact of delays in transfer, or increased time to arrival at definitive care could impact patient outcome and should be considered prior to admission.</p> <p>The goal for patient arrival at definitive care is 120 minutes from the time deterioration is discovered.</p> <p>The inpatient emergent transfer procedures can either be outlined in the admission policy or similar document.</p>
---------------------------	---	---	----------------------------	--

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
Transfer 11.1	<p>The hospital must have a policy directing the internal processes to emergently implement the transfer of a trauma patient from the emergency department or an in-patient area to definitive care that lists:</p> <p><b>11.1.1</b> The anatomic and physiologic criteria that, when present, must result in the decision to transfer.</p> <p><b>11.1.2</b> The orthopedic surgical conditions that, when present, must result in the decision to transfer. The policy must specifically address how time-sensitive orthopedic conditions such as a threatened limb, compartment syndrome, dislocated knee, and dislocated native hip (i.e., not arthroplasty) will be managed while awaiting transport.</p> <p><b>11.1.3</b> The primary ground and aeromedical transfer services to be used, with contact information for each.</p> <p><b>11.1.4</b> A listing of the supplies, records, and personnel accompanying the patient.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Trauma Transfer policy</li> </ul> <p>This will be validated through case reviews at site visit.</p>	L4 Trauma Transfer Policy	<p>Definitive care includes any designated trauma hospital with the resources to treat all injuries the patient has sustained. If all injuries can be definitively managed at this hospital, transfer is not needed.</p> <p>Anatomic criteria refer to specific injuries and injury patterns.</p> <p>Physiologic criteria refer to disturbances in vital signs, such as low GCS, decreasing GCS, or hypothermia.</p>

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
<b>Transfer 11.2</b>	<p>Designated trauma hospitals may not transfer adult or pediatric patients to undesignated hospitals.</p> <p>Exception: Due to regulatory limitations, patients may be transferred to a Veterans Administration medical center when medically appropriate.</p>	<p>This will be validated through case reviews at site visit.</p>	<p>Trauma System Hospitals website</p>	
<b>Transfer 11.3</b>	<p>The hospital must have transfer agreements with trauma hospitals capable of providing definitive care for trauma patients, including:</p> <p><b>11.3.1</b> At least one agreement with a primary referral hospital</p> <p><b>11.3.2</b> At least two agreements with hospitals capable of caring for burn patients</p> <p><b>11.3.3</b> At least one agreement with a designated Level 1 or Level 2 Pediatric Trauma Hospital.</p>	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Transfer Agreement with primary referral hospital</li> <li>• Transfer Agreement with two hospitals capable of caring for burn patients</li> <li>• Transfer Agreement with Level 1 or Level 2 Pediatric Trauma Hospital</li> </ul>	<p>Sample Transfer Agreement</p>	<p>One agreement can fulfill multiple categories.</p> <p>Most transfer agreements renew automatically. If they do not, be sure to update before they expire.</p> <p>Transfer agreements are required, even if the transferring and receiving hospitals are part of the same system.</p> <p>The primary referral hospital may be within the hospital's own health system</p>

## LEVEL 4 TRAUMA HOSPITAL CRITERIA CROSSWALK

Section	LEVEL 4 CRITERIA	Measure of Compliance / Validation	Resources / Sample Documents	Helpful Tips
<b>General Surgeon Training 12.1</b>	If the hospital admits trauma patients as described in Section 10.2, general surgeons must have successfully completed ATLS and/or CALS within the last four years. Providers must re-take their ATLS or CALS before or during the month in which it is due.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Clinician Roster</li> <li>• Current ATLS or CALS certification cards</li> </ul>	Clinician Roster	<p>Collaborate with the credentialing office.</p> <p>There is no grace period for either ATLS or CALS training.</p> <p>Dates of course completion should be documented on the clinician's roster, not expiration dates.</p> <p>If the general surgeon is using their instructor status to meet this requirement, current instructor status must be validated.</p> <p>This requirement does not apply to those who are called in to assist the attending provider during an unusual and rare event, such as a Mass Casualty Incident (MCI).</p>
<b>Emergency Physician Training 13.1</b>	If the emergency department physician is currently board-certified or board-eligible with an American Board of Emergency Medicine (ABEM)-approved or American Osteopathic Board of Emergency Medicine (AOBEM) certification or is board-certified in Pediatric Emergency Medicine by the American Board of Pediatrics, then the physician is required to have successfully completed an ATLS or CALS course once.	<p>The following must be submitted with the designation application:</p> <ul style="list-style-type: none"> <li>• Clinicians Roster</li> </ul>	Clinician Roster	<p>Physicians scheduled to work in the emergency department as a second provider must meet the training requirements of the trauma system.</p> <p>Collaborate with the credentialing office.</p> <p>This requirement does not apply to those who are called in to assist the attending provider during an unusual and rare event, such as an MCI.</p>
